

Technical drawing of a wall cross-section. The drawing shows a wall with a height of 195 units. The wall is divided into three sections: KAMPADA 1 (1969 units), KAMPADA 2 (450 units), and KAMPADA 3 (497 units). The wall is supported by a foundation with a width of 2916 units. The drawing includes labels for 'Linija uređenog terena iza zida' (Line of the organized terrain behind the wall), 'Linija postojećeg terena' (Line of the existing terrain), and 'Linija uređenog terena ispred zida' (Line of the organized terrain in front of the wall). The drawing also shows 'Barbakane Ø8 cm' (Barbican Ø8 cm) and 'Odbojna ograda' (Retaining wall). Dimensions for the wall and foundation are provided in units.

[illegible]

Technical cross-section drawing of a retaining wall structure. The wall is 430 cm high and 250 cm wide at the base. It consists of a concrete base (Podložni beton C 12/15) and a wall body made of brickwork (Barbakane Ø8 cm). The wall is topped with a parapet (Odbojna ograda) 75 cm high. The wall is filled with drainage material (Drenažni materijal 0-32 mm) and separated from the backfill by a geotextile (Razdjelni geotekstil). The backfill is composed of excavated clay material (Povrat glinenog materijala iz iskopa). Dimensions are given in cm: 50, 120, 50, 80, 250, 50, 380, 430, 75, 20.
